FINANCIAL.

Financial Review.

New York, July 23.

Events of the week in money circles were quite important. Money was easy throughout the week at 21@3 per cent as the ruling rates for call loans. Foreign exchance was dull and weak throughout the week, and rates vere reduced. Government bonds were quiet and prices show a decline for the week of ‡ per cent in the 4s and 4s, and ½ for the extended bonds. Railway and miscellaneous speculation was characterized by marked depression in early, and weak when there were large transactions and considerable accidence. transactions and considerable excitement. St. Paul led the down movement and declined sharply. The cutting of freight and passage rates by the trunk lines and the reports of the great damage to crops by recent storms had an unfavorable effect on recent storms had an unfavorable effect on the market and caused a decline of 1@92 per cent; weakness was also very marked in Alton and Terre Haute, Chicago, Bur-lington and Quincy, the coal shares and some of the new stock. Toward the close there was a firmer feeling and a recovery of \$\frac{1}{2}@6\frac{1}{2}\$ per cent, the rise being chiefly due to the cornering of short contracts to-day, however, the unfavorable advices from Washington, about the president, caused a sharp decline, and some of the list closed at the lowest prices of the week.
